Subject-(-----)

Dear Sir/Mam,

I am writing this letter to express my interest in the doctoral program at [university] in the [department].

I currently hold a [degree] from [university]. I am applying for the doctoral program at [university] because the interests of the [department] are an excellent match for my academic. While studying for the [degree], I developed a special interest in [branch]. Also, my BA thesis on [topic] further deepened my interests in the complex working of [field]. While doing my thesis under [professor name],

I now wish to further my academic career in [field] and better place than [university]? If given a chance, I would particularly like to work with [professor] because who better than her for this field of research?

With [problem], I think I can contribute a lot to the world with my study of [topic]. I have proposed an experimental study on [topic] at my current university, and my mentor thinks that it can work.

After completing my Ph.D., I plan to pursue further research on my own on [topic].

Thank you for your consideration.

Thanks,

Sincerely,
(Signature)
Raymond
